As we launch our second decade in 2011, we are excited to share with you the many accomplishments of our previous season.

We received a range of notable local and national awards, hosted our first artist, writer, and curator residencies, and once again surpassed the gallery’s records for attendance, sales, and donations. We were featured in an astonishing amount of newspapers, art journals, and TV broadcasts (over 200 internationally, including The New York Times, Artforum, USA Today, and Houston Chronicle, among others), were the subject of two Associated Press articles, graced the cover of many local papers, and were a feature story on ABC-affiliate WTAE’s Action News.

This season we return with an array of thought-provoking exhibitions, publications, and projects, including the premiere of four new installations in an unprecedented, city-wide collaboration with several major art institutions, the 2011 Pittsburgh Biennial.

Thank you for your interest in and support of our programming—we hope you will join us as we enter our next decade!

Without question, one of the finest shows I’ve seen at the Miller Gallery was the 2009 MFA show. I really believed I was seeing the work of rising stars.

The Miller Gallery is always exciting, always challenging, and always at the forefront. Whenever I go to Pittsburgh, visiting the Miller Gallery is a must.
