Tuesday–Sunday, 11:30am–5:00pm

curated by LANE HALL + LISA MOLINE and JENNY STRAYER
Animal Nature presents the work of an international group of artists and scholars whose work investigates the nature of “the animal.” The work explores complex issues in animal representation including: the animal body, the trace of the animal, animal agency, animal voice and the multitude of cultural constructions that create our framework for understanding human/animal relationships. The exhibition developed out of the ongoing web project at www.criminalanimal.org.

A catalogue is available with entries by Steve Baker, author of The Postmodern Animal, as well as by co-curators Lane Hall and Jenny Strayer.
