About The Exhibition

Hidden away for the past four years in the College of Fine Arts, "FROM THE VAULT" presents the artworks of Carnegie Mellon University's finest degenerate delinquents, rebels with a cause, spiritual enthusiasts, and practical dreamers. The most creative criminals in the book, we present to you the class of 2009: *panpsychists, selcouthists, paralogists, and strikhedonists.*

Painting, sculpture, electronic media, print, and performance – the students of the School of Art have carved new paths and wayward routes in the ever-changing realms of the visual. Today we release Carnegie Mellon's best-kept secrets from the vault.
