AMALGAMATION.

As artists, our practices emerge from our individual experiences, perceptions, and goals, but the artistic spirit of our class as a whole is more than the sum of our parts. We have developed a balance of engaging influences from contemporary culture while we maintain our own unique modes of making art. MEGA is the representation of our interconnected artistic endeavors and identities as a community.

After four years of sharing creative growth and pursuing our aspirations, together we finish with an exhibition that represents all of us, best with personality and passion.

-Senior Class of 2011
